

Cian Byrne

Dublin, Ireland

083 857 7260 | cianbyrne7@gmail.com

Portfolio: cianbyrne.co.uk

UX Designer with 3+ years of experience designing user-centered digital products across research, interaction design, and prototyping. Experienced in leading end-to-end design on customer-facing and internal platforms, translating complex requirements into intuitive, accessible solutions. Strong collaborator with product and engineering teams.

EXPERIENCE

UX Designer

ESB: 2025 – Present

UX Designer for ESB Enterprise Services. My role involves the creation of digital solutions via Figma. I have worked on numerous projects across the company from Internal, ESB Networks, and ESB Archives. My day-to-day tasks involve: UX Research, Wireframes, UI Design, Prototyping, User Testing.

Business Analyst

ESB: 2024 – 2025

Business Analyst for the ESB Networks Customer Portal team. Experience in agile working where my role featured tasks such as: Writing user stories, refinement sessions, creating process flows (Visio), sprint planning, and preparing sprint demos.

UX Engineer

Feral Interactive: 2023 – 2024

UX Engineer role for company design team. My role was that of a combination of front-end development and design. During my time here I worked on the game Total War: Empire for iOS and Android. Used HTML/ CSS and C++ based language to develop UI, Figma and Photoshop used to create mock-ups and final designs, tested how dynamic my user-interfaces were across mobile devices

CERTIFICATES

Professional Certificate in Designing for Accessibility - UX Design Institute

Certificate in AI Fundamentals for UX - UX Design Institute

Artificial Intelligence Fundamentals - IBM

Professional Diploma (Level 6) in UX Design - UX Design Institute

SKILLS

UX & Research

- User research,
- usability testing
- personas
- journey mapping,
- heuristic evaluation

Design

- Interaction design
- information architecture
- wireframing, prototyping
- UI design

Tools

- Figma,
- FigJam,
- Adobe Illustrator,
- Photoshop, Jira,
- Confluence,
- Visio
- Azure Devops

Methods & Delivery

- Design systems
- Accessibility (WCAG)
- Agile delivery
- Stakeholder collaboration

Technical

- HTML, CSS,
- JavaScript
- Generative AI for design
